Farm to Table

Learning Goals
1. Students will identify basic farming practices and describe how food moves from farms to people. 2. Students will compare farming tools and techniques from the past with farming practices used today. 3. Students will participate in hands-on agricultural tasks such as threshing, winnowing, carrying water, or using simple farm-related tools. 4. Students will recognize that land, water, plants, animals, tools, and people all play a role in food production. 5. Students will explain why local food systems, sustainability, and responsible use of resources matter.

The strongest curriculum matches are in bold.
