Healthy Hands

Learning Goals
1. Students will compare health and dental practices from the past with health and dental practices used today. 2. Students will investigate how tools, medicines, and medical knowledge have changed over time. 3. Students will practice observing, testing, and comparing the effectiveness of different tooth-cleaning tools. 4. Students will recognize that different communities have developed knowledge and practices to support health and healing. 5. Students will identify doctors, dentists, healers, and medical workers as people who help support individual and community well-being.
