Taking Care of Business

Learning Goals
1. Students will identify examples of local businesses and industries that helped shape Stratford and Perth County communities. 2. Students will explain how natural resources, tools, workers, transportation, and technology support the making and selling of products. 3. Students will examine artifacts and local business stories to understand how industries such as agriculture, lumber, furniture making, packaging, brickmaking, dairy, and ropemaking developed over time. 4. Students will participate in a hands-on ropemaking activity to explore how materials, force, tension, twisting, teamwork, and tools are used to create a useful product. 5. Students will compare past and present businesses, technologies, and methods of production to understand how work and industry have changed over time.
